To Whom It May Concern,

[I'm writing out of deep concern for the fate of Yucca Mountain and the heritage of the Western Shoshone Nation. I remember folks camping there years ago, for years, to resist this plan of nuclear waste storage. We all thought it was safe.

Please - I'm sure you've heard all the reasons why this is a ridiculously inappropriate plan. There seem to be many other solutions - more safe & less costly. Please stop funding the Yucca Mountain Project. Please support/create legislation that requires on-site hardened storage of nuclear waste (nuclear waste is going to be transported from all over the country!! Do you think the majority of the people in this democracy want this - do you care?). Please do what is right for present and future generations.]

Thank you for your time & consideration
